A Message from Ken Neumann
National Director for Canada

Retirement from the United Steelworkers is not the end to union involvement. Active retirement takes on a whole new meaning when you join a new community of Steelworkers through SOAR.

SOAR has been making a difference for more than 30 years—taking on pension reform, strengthening public health care and fighting for legislation that provides real benefits to Canadian workers and communities.

SOAR members’ experiences, skills and leadership strengthen our union and lend an important voice to the issues that matter.

Through SOAR, you will always be an active member of the union family.

Get active with SOAR today.

Ken Neumann

MAKE A DIFFERENCE

Make your voice heard by decision-makers

“We need to improve the quality of life of retirees. And we can’t do that if we’re at picnic tables all the time. What we really need to do is get our retirees involved in our legislative agenda.”

- Lynn Williams, SOAR and USW International President Emeritus on the need for SOAR

SOAR is your voice in the political arena and your vehicle for change.

Quality medical care and improved working and living conditions have increased our life expectancy. Senior citizens are a growing and powerful political force. Seniors have unique legislative concerns that must be heard. And politicians listen, because seniors vote.

If you have a pension plan, it is because the Steelworkers won it for you. Now the United Steelworkers is leading the fight to protect health insurance, life insurance and pension benefits from being lost as companies attack these benefits or simply shut down.

You have worked hard so that you can live your retirement years in dignity. Yet federal budget cuts and changes in federal and provincial programs can jeopardize our retirement security and our public health care.

SOAR's activism and organized participation produce change. The skills, experience, ideas and energy of USW retirees make our voice heard. Together, we are making a difference and bringing about positive changes by governments and in our communities.

SOAR is the organization speaking out for you and ensuring that government policies protect your rights.

The United Steelworkers is a strong, activist union. That doesn’t change with retirement. With your involvement, SOAR and the USW can continue our tradition of activism working for positive social change.

SOAR is a community of Steelworkers and a major force for justice.
